

THE NAACP NORTH SHORE BRANCH AND THE ADMETECH FOUNDATION INVITE YOU

Prostate Cancer Awareness Virtual Event

An evening of education and open conversation: what has changed in prostate cancer screening and diagnosis, and the resources that help men make informed choices before and after screening, biopsy and treatment.

- **Know your risk.**
- **Learn what is new in detection and treatment.**
- **Take charge of your health.**

Better information. Earlier answers. More choices.

Start the conversation this year, and know you will not have to navigate it alone. The AdMeTech Prostate Cancer Equity Resource Project helps men and families find their way through the system, from the first question to the right appointment.

WHO YOU WILL HEAR FROM

Beth Israel Lahey Health
Beverly Hospital

Alison Levy, MD
Director of Urological Robotic Surgery,
Lahey Institute of Urology, Beverly

Faina Shtern, MD
President and CEO, AdMeTech Foundation

Time for your questions at the end.

Wednesday, October 21, 2026

7:00 pm to 8:30 pm, on Zoom

Free. No registration required.
